

Flash Bulletin

Feb. 8th, 2007

Ciba[®] Expert Services has been working closely with P.R. China SEPA on chemical notification law developing since 1996. After the New China Chemical law is implemented in 2005, the business unit Expert Services of Ciba Specialty Chemicals (China) Ltd, has been the leading company who pro-actively cooperates with SEPA Chemical Registration Center (known as CRC) to notify our new chemicals.

Ciba[®] Expert Services is a neutral and independent consulting department which provides high quality regulatory services to external customer, to help them notify their new chemicals in China. The achievements we have are as following:

Ciba[®] Expert Services has obtained the **first** full notification certification in China.

Ciba[®] Expert Services has obtained another **28** full notification certifications in China since.

Ciba[®] Expert Services has successfully accomplished and certified **172** notifications in total. It includes full notification (basic level), as well as exemption and simplified notifications.

On-going Ciba[®] Expert Services is supporting its clients on **64** notifications. This includes 1st level full notification, basic level full notification, as well as exemption & simplified notifications.

Ciba[®] Expert Services provides tailored training to our clients. We will involve our client's personnel throughout the process of notification and help them to learn from our hands-on experience in notification.

Ciba[®] Expert Services has built up excellent partnership with Chinese Toxicity and Eco-toxicity laboratories. Such partnership enables us to conduct toxicity/eco-toxicity studies in China with competitive price.

With our professional skills and experience we can help our clients to notify their new chemicals in an efficient way. Avoid misjudgment and unnecessary testing costs. Our current clients include a number of multi-national companies. Ciba[®] Expert Services strictly protects our client confidentiality.
