Ciba Specialty Chemicals

Ciba® Expert Services

Our Knowledge – Your Advantage

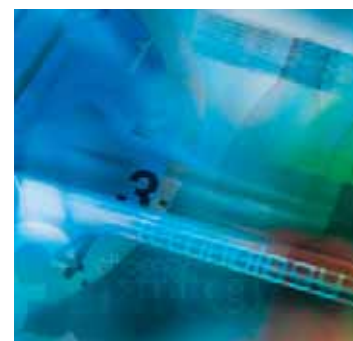

Growing workloads and reduced staff levels are realities of today's business environment. No wonder more and more companies are taking advantage of Ciba® Expert Services for responsive and reliable outsourcing partnerships.

Ciba® Expert Services are knowledge-based services that enhance and strengthen customer business performance. Companies trust Ciba® Expert Services for access to specialized resources and equipment. Customers benefit from global service packages that enable them to rapidly implement business strategies.

Drawing on core competencies and a global network, Ciba® Expert Services help a broad range of companies get their products to market faster, increase productivity and improve product quality. We serve companies in a variety of industries including:

- Agriculture
- Automotive
- Chemical Manufacture
- Construction & Pipe
- Consumer Goods
- Electronic Materials
- Food & Beverage
- Home & Fabric Care
- Inks & Graphics
- Lubricants
- Packaging
- Paints & Coatings
- Paper
- Personal Care
- Pharmaceuticals
- Photo & Digital Imaging
- Plastics
- Pollution Control
- Textiles
- Water Treatment

Our Knowledge – Your Advantage

Our global network of experts helps customers in highly regulated industries achieve compliance, efficiencies and sustainable success.

Ciba® Color Services

We help major brands and producers achieve lower production costs, shorter delivery times, and faster product introductions with services and tools that manage color consistency, performance, and quality throughout entire value chains.

- Customized color standards
- Color management platforms for entire value chains
- Color measurement software with associated application support
- Color communication tools & services

Ciba® Educational Services

Our technical, safety and regulatory seminars and conferences bring together a network of government experts, renowned consultants and industry professionals in interactive and stimulating settings.

- Legislation and compliance seminars
- Technical seminars
- Customer-tailored programs

Ciba® Environmental Services

Our services incorporate ecological and economical factors to offer solutions in the treatment of effluent streams that combine innovative in-process measures with adapted end-of-pipe technologies, as well as effective techniques for dealing with combustible off-gases, wastewater and ground water treatment.

- EHS management systems
- Occupational hygiene and environmental testing
- Auditing, inspection and facility permitting

Ciba® Regulatory Services

Our experience with governmental authorities and local and regional trade associations enables us to map fast-track and cost-effective approaches to help customers enter new markets, introduce new products and comply with changes in existing regulations.

- Notification of new chemicals
- International regulatory compliance, e.g. food contact and packaging applications
- Toxicology and risk assessment
- Regulatory services tailored to your needs

Ciba® Safety Services

We provide consultation, auditing and hazard communications management to minimize hazards associated with powder-handling and chemical manufacture.

- Powder safety testing
- Thermal stability evaluation
- Consultation of processes and compliance

Ciba® Testing Services

Our full-service, analytical GLP/GMP and material testing laboratories are well equipped to characterize your materials and determine their critical physical and chemical properties.

- Material and packaging testing and consulting
- Application specific test method development
- Impurity profiling
- Product failure investigations
- Complex formulation identifications

Services from Pira International

In 2004, Ciba Specialty Chemicals acquired Pira International, a leading consultancy and testing business with major conference and publications activities serving the packaging, paper, printing and publishing supply chains.

- Pira helps companies with a comprehensive portfolio of services.
- Strategic and technical consultancy
 - Analytical and physical testing
 - Publications and information
 - Membership
